**Clarifications:**

Per Specification Section 16251, please see the following clarifications listed below:

- 1) Please note that the above scope of supply includes a generator MLCB which is a Merlin Gerin/Square D type circuit breaker installed as a factory standard. At this time, Cummins Rocky Mountain LLC has not been given sufficient information concerning specific circuit breakers necessary for selective coordination and or a coordination study. If applicable, additional pricing will be made available for specific breakers upon the direction of a coordination study. A selective coordination study is not included in this proposal.

*"Best ... Every Time, Every Day"*

June 11, 2015

- 2) The above scope of supply does not include any permitting. Cummins Rocky Mountain is happy to assist with information to complete the process but is not liable for completing or funding it.
- 3) Initial fuel fill is included in the above scope of supply.

**Please note that the above pricing is F.O.B. jobsite, Std. start-up/ commissioning services during normal business hour's w/ operational transfers of available building load, 4Hr.resistive load bank testing, owner operational/ maintenance training, & 3-Sets of O & M manuals; does not include any applicable taxes & is subject to change without further notice.**

Please feel free to contact me if you require any additional information; or if you have any further questions or concerns that I may be of assistance with.

Thank you for choosing Cummins
