TOWN OF TIMNATH, COLORADO

RESOLUTION NO. 92, SERIES 2011

A RESOLUTION APPROVING THE CONTRACT BETWEEN GERRARD EXCAVATING AND THE TOWN OF TIMNATH TO PROVIDE PROFESSIONAL SERVICES RELATED TO POTHOLING IN THE OFF-SITE SEWER LOCATIONS

WHEREAS, the Town of Timnath Town Council wishes to contract with Gerrard Excavating for professional services related to potholing.

WHEREAS, Gerrard Excavating shall provide professional services relating to potholing activities along the projected off-site sewer location.

BE IT RESOLVED BY THE TOWN COUNCIL OF THE TOWN OF TIMNATH, COLORADO:

Section 1. The Town of Timnath Town Council agrees to contract with Gerrard Excavating as set forth in EXHIBIT A, attached hereto.

Section 2. Effective Date

This Resolution shall be effective upon February 28, 2011

PASSED, APPROVED AND ADOPTED THIS 28TH DAY OF FEBRUARY, 2011.

TOWN OF TIMNATH, COLORADO

Milissa McGuire, Town Clerk
TO: Sherri Wagner

FROM: Eric Fuhrman, P.E.

DATE: 2-16-11

SUBJECT: Timnath Farms North Potholes

PROJECT NO.: 0879.0000.01

During the discussions regarding the offsite sewer (the sewer line from Main Street to CR3 across Timnath Farms North), one significant item of unknown impact is the presence of any cemented sands. In order to determine the presence of these materials, potholing would be required with an excavator.

It is our opinion that doing some investigative potholes along the current alignment would be in the Town’s best interest in moving the project forward. This information would help to narrow the estimated costs to construct the gravity sewer as currently designed. After consulting with Gerrard, they think it would be possible to do 6-8 potholes in one day.

The estimated costs to do 6-8 potholes would be as follows:

- Excavator & Operator (Gerrard) $2,500 / day
- Survey pothole locations (TST) $500
- Engineering Observations (TST) $1,000 (1 day)

Total Cost $4,000
