TOWN OF TIMNATH, COLORADO
RESOLUTION NO. 24, SERIES 2018

A RESOLUTION APPROVING ANNUAL AGREEMENT WITH LARIMER COUNTY WEED DISTRICT

WHEREAS, the Town Council of the Town of Timnath ("Town") pursuant to C.R.S. § 31-15-103, has the power to pass resolutions; and

WHEREAS, attached hereto as Exhibit A is the Services Agreement between the Town of Timnath and Larimer County Weed District (the "Agreement"); and

WHEREAS, the Town Council is familiar with the Agreement and finds it to be in the best interest of the Town, its residents, and the general public.

NOW, THEREFORE, BE IT RESOLVED BY THE TOWN COUNCIL OF THE TOWN OF TIMNATH, COLORADO as follows:

Section 1. Approval
The Agreement is hereby approved in substantially the form as attached hereto, subject to technical or otherwise non-substantive modifications, as deemed necessary by the Town Manager in consultation with the Town Planner, Engineer, Legal Counsel, and other applicable staff or consultants.

EXHIBIT A

AGREEMENT
Larimer County Weed District
Scope of Work for Town of Timnath- 2018

Cody Speaker and Nick Scharffbhill
C/O Town of Timnath
February 12, 2018

Cody and Nick,

Thanks again for taking the time to show me the new properties that the town would like included in the vegetation management plan with Larimer County in 2018. Below is the weed management scope of work for the locations we visited and existing properties that will be treated this upcoming 2018 spray season. I have broken down each individual charge that will accrue through the completion of the project for your approval. This is only an estimate and it may vary slightly. If there are any questions or concerns please do not hesitate to contact me.

Each job will require different means of application. Based on my prior years knowledge of the properties, I have determined we need roughly 6 days of application (3 days spring/summer treatment, and 3 days follow up fall treatment) with use of ATV @ $140.00/hr. per applicator, and backpacking @ $70.00/hr. per applicator. These are based on a 6-hour work day, weather permitting. Good weather days will allow us to put in 7+ hour work days, but, could be decreased due to adverse weather and therefore increasing our total days spent on the project (but not exceeding our total days combined).

Wild Wing Locations(s): I estimate a total of 3 hours being spent at this location (per treatment). 1 ATV applicator for 2 hours and 2 backpack applicators for 1 hour each.

2 hours @ $140.00/hr. ATV applicator= $280.00
1 hour @ $70.00/hr. per backpack applicator= $140.00

6 hours total (spring/ summer and fall follow up): $840.00

Wal-Mart Area (including trail, pre-emergence): I estimate of total of 7 hours being spent at these locations (per treatment): 2 ATV applicators and 2 backpack applicators:

7 hours @ $140.00/hr. per ATV applicator= $1,960.00
7 hours @ $70.00/hr. per backpack applicator= $980.00

28 hours total (spring/summer and fall follow up): $5,880.00
Old Town Area (pond property, alley pre-emergent, newly added property on Kern): I estimate a total of 6 hours being spent at these locations: 1 ATV applicator for .5 hour in alley, 2 ATV applicators at vacant pasture for 4.5 hours and 2 backpack applicators for 1 hour at pond property.

5 hour @ $140.00/hr. ATV applicator = $1,400.00

1 hour @ $70.00/hr. per backpack applicator = $140.00

6 hours total (spring/summer and fall follow up): $3,600.00

Timnath Reservoir (newly added east side as well): I am estimating 17.5 hours of work with this location. 2 ATV applicators for 7 hours a day and 2 applicators utilizing our Gator UTV w/50' hose reel for same allotted time:

17.5 hours @ $140.00/hr. per ATV applicator = $4,900.00

17.5 hours @ $190.00/hr. times 2 applicators = $3,325.00

60 hours total (spring/summer and fall follow up): $16,450.00

Park and adjacent field on Summersfield (Newly Added): I am estimating 1 day of work at this location, but only 2 hours of backpack work around the park. 2 backpack applicators for 2 hours a day and 1 ATV applicator for 4 hours.

4 hours @ $140.00/hr. per ATV applicator = $560.00

2 hours @ $70.00/hr. per backpack applicator = $280.00

21 hours total (spring/summer and fall follow up): $1,680.00

Roadside Spraying: I would recommend 2 treatments, the first in early season (May) and a follow up treatment again towards the end of the summer (September). Based on the roads selected totaling 36 lane miles, each treatment should take 4 hours. Herbicide cost will be determined based on the amount used during time of application. I am making an estimate of treating 7 acres each time based on past treatments of the roads in the area. I will be using a tank mix of Milestone, Telar and Quinstar.

The estimated cost for herbicide and surfactant is $255.00 per treatment. (Cost may vary based on acreage treated).

4 hours @ $140.00/hr. roadside truck applicator = $560.00

Herbicide cost estimate (2 treatments): $1190.00

8 hours total (2 treatments): $1120.00

Total cost estimate 2 treatments of 36 lane miles: $2310.00
Expected job completion time: 7 days +/- (early season treatment and follow up treatment)

Total cost estimate in labor: $30,760.00

Herbicide cost will be determined based on the amount used during time of application. We will be using a tank mix of Quinstar+ Milestone+ Telar which has proven to be very effective for control of thistle spp, Leafy spurge, Dalmatian toadflax, and most other species we have observed on the Timnath properties. A bareground treatment is recommended for the applications performed in the alley ways where there is bare ground and will impede vegetation growth for several months. This treatment is a little costlier at initial treatment, but will limit the treatments in a calendar year. We also reserve the right to make changes to our tank mix based on site and species specific. The estimated cost for herbicide and surfactant is $2,500.00 +/- 10%.

Total cost estimate - $33,260.00

Thanks again Cody and Nick for the time and opportunity given to the Weed District, and we look forward to working with you again this summer. Please let me know if there is any other information we can provide.
