

Attn: Contractors and Homeowners

Let's work together on keeping the Town of Timnath beautiful!

Please be respectful of your neighbors and nearby homeowners by using covered debris and trash receptacles on your construction sites as outlined in Sec. 7-2-80 (e) of the Timnath Municipal Code. The unit shall be covered during the work day as much as practical and in all cases when work has ceased at the end of the day. Covering them after each work day will prevent trash from blowing throughout the subdivision and onto neighboring properties.
