POLICY INTENT

The Town leases Timnath Reservoir for the enjoyment of Timnath residents. The purpose of this policy is to outline the rules for Timnath Reservoir's use.

- c. **Shore Use** shall include any activities such as swimming from the **designated** beach area as it is developed, fishing from the shore or piers, picnicking and general recreation on the shore and adjacent Reservoir Property Area. Any interpretation regarding what constitutes appropriate Shore Use shall be at the discretion of the Parks and Recreation Director.
- d. **Surface Water Use** shall include motorized boats, non-motorized boats, eFoils, fishing from a boat, water skiing, swimming from a boat. Any interpretation regarding what constitutes appropriate Surface Water Use shall be at the discretion of the Parks and Recreation Director.

- i. **Aquatic Nuisance Species (ANS)** A species that is: 1.) non-native (or alien) to the ecosystem under consideration and 2.) whose introduction causes or is likely to cause economic or environmental harm or harm to human health.
- j. **ANS Act** provides authority to Qualified Peace Officers to inspect, and if necessary, order a vessel to be decontaminated or quarantined watercraft for ANS. It provides authority for Colorado Parks and Wildlife (CPW) to certify individuals as “Authorized Agents” (a.k.a. inspectors and decontaminators) to work at “Authorized Locations” (a.k.a. watercraft inspection and decontamination stations or WIDS) for the purposes of inspecting and decontaminating watercraft to prevent new introductions and contain existing detections of ANS. Town of Timnath Reservoir Attendants are authorized agents of the CPW. The Reservoir site is NOT a decontamination station. If decontamination is ordered by a Reservoir Attendant, the vessel must be taken to an authorized decontamination location to be decontaminated before returning to the Reservoir.
- k. **Non-Motorized Boat** shall include any vessel that does not require a trailer to launch and is exempt from mandatory aquatic nuisance species inspections. The

This includes simple and complex boats. Motorized Boats shall also include all marine propulsion systems, and each must be inspected regardless of the type of motor, engine, or watercraft.  - q. **Personal Watercraft (PWC)** a recreational watercraft that the user sits or stands on, rather than inside of, as in a boat. Models have an inboard engine driving a jet pump that has a screw-shaped impeller to create thrust for propulsion and steering. (*PWC, with the exception of eFoils are prohibited at the Timnath Reservoir*).
